SUMMARY

Experienced and skilled Web Developer proficient in all aspects of advanced web development. Possessing extensive knowledge in user interface design, testing, and debugging processes. Bringing expertise in designing, installing, testing, and maintaining web systems. Equipped with a diverse skill set and proficient in various technologies such as React, Angular, Vue.js, Next.js, Nuxt.js, and Typescript. Highly capable of self-management in independent projects and collaborating effectively in team environments.

SKILLS

Hard Skill

| | | | | | | | | |
|------------|--------------|---------|---------|-------|------------|--------------|---------|--------|
| React | React Native | Node.js | JSX | Redux | Javascript | React Router | Angular | Vue.js |
| Typescript | Next.js | API | GraphQL | CI/CD | NEST.js | MERN stack | | |

Soft Skill

| | | | |
|------------------------------------|--------------------------|---------------------------|--------------------------|
| Clear and Concise Communication | Collaboration | Critical Thinking | Understanding User Needs |
| Prioritization and Time Management | Detail-Oriented Approach | Leadership and Mentorship | |

EXPERIENCE

Full Stack Developer

10/2015 - 08/2017 San Jose, CA

- Implemented a mobile-friendly user interface leveraging Chakra UI, resulting in a noteworthy 26% reduction in bounce rate.
- Enhanced database performance by 43% through the optimization of database queries.
- Collaborated closely with the QA team to address and resolve bugs, ensuring the timely delivery of software products of exceptional quality.
- Successfully implemented continuous integration and deployment pipelines, which led to a significant 28% reduction in release cycles.

Front-end Developer

07/2017 - 04/2020 Los Gatos, CA

- Implemented Redux for efficient state management, resulting in a significant optimization of application performance and a remarkable 47% reduction in load time.
- Integrated Apollo Client for seamless GraphQL integration, leading to an impressive **53% reduction in API response time.**
- Engaged in code reviews to offer constructive feedback and ensure strict adherence to industry best practices.
- Enhanced development processes by incorporating efficient CI/CD pipelines, resulting in a notable **39% reduction in release cycles.**

React Developer

04/2020 - 07/2023 San Francisco, CA

- Ensured high code quality throughout the React codebase by implementing ESLint, resulting in a notable 21% decrease in code review time and a significant improvement in the overall health of the codebase.
- Developed comprehensive test suites using Enzyme, leading to a remarkable **52% increase in test coverage.**
- Built server-side applications utilizing NestJS, resulting in a significant **44% reduction in response time.**
- Created and integrated React components using React Router to elevate the user experience of navigation.
